Sahaja Yoga Overview

Sahaja Yoga is a unique method of meditation based on the experience of the awakening of one's inner power by the process called as "Self Realization". This can happen in every human being, resulting in our inner transformation by which we become moral, integrated, balanced and peaceful. The actualization of this transformation has been happening worldwide and experienced by millions of people in more than 100 countries. Sahaja Yoga founded in the year 1970, by H. H Shri Mataji Nirmala Devi, when She discovered the process of giving en-masse Realization. For Her selfless contribution towards emancipation of mankind, Shri Mata Ji received numerous awards and recognitions from Governments of various countries and International Organizations like United Nations

What is Sahaja Yoga?

Sahaja Yoga is an effortless spontaneous technique to reduce stress and improves holistic wellness in our daily life. "SAHA" means "With", "JA" means "Born" and "YOGA" means Union with Divine energy. Sahaja Yoga is a unique method of meditation based on an experience called Self Realization (Kundalini awakening) that can occur within each human being. Through this process an inner transformation takes place by which one becomes moral, united, integrated and balanced. One can actually feel the all-pervading divine power as a cool breeze, as described in all religions
